

LVM

Logical Volume Manager

Delete

Antes de eliminar un volumen montado debemos desmontarlo

`lvremove /dev/mapper/<VolGroup>/<VolName>`

Analisis

`pvs`

`vg`

`lv`

`pvdisplay -vv`

`vgdisplay -vv`

`lvdisplay -vv`

Create

`pvcreate /dev/<Partition>`

`vgcreate <VolGroup> /dev/<Partition>`

`lvcreate -L 50G -n <VolName> <VolGroup>`

Ahora puedes montar manualmente el volumen o añadirlo en el fstab

Extend

`vgextend <VolGroup> /dev/<Partition>`

`lvextend -l <options> /dev/mapper/<VolGroup>`

`xfs_growfs /dev/mapper/<VolGroup>`

options:

`+100%FREE`

`+50G`
